### SpringWorks Therapeutics Reports Fourth Quarter and Full Year 2019 Financial Results and Recent Business Highlights

- *Dosed the First Patient in the Phase 2b ReNeu Clinical Trial of Mirdametinib for Patients with Neurofibromatosis Type 1-Associated Plexiform Neurofibromas (NF1-PN) -*
- *Signed Clinical Collaboration with Allogene to Evaluate Nirogacestat in Combination with Allogeneic CAR T Cell Therapy in Patients with Relapsed or Refractory Multiple Myeloma –*
- *Initiated a Phase 1 Clinical Trial of BGB-3245, a Selective Next-Generation B-RAF Inhibitor, in Adult Patients with Advanced or Refractory Solid Tumors –*
- *Ended 2019 with \$328 Million in Cash and Cash Equivalents -*

**STAMFORD, Conn – March 12, 2020** – SpringWorks Therapeutics, Inc. (Nasdaq: SWTX), a clinical-stage biopharmaceutical company focused on developing life-changing medicines for patients with severe rare diseases and cancer, today provided an update on recent company developments and reported fourth quarter and full-year financial results for the period ended December 31, 2019.

“2019 was a very successful year for SpringWorks. We initiated three clinical trials, including two potentially registrational trials in rare oncology indications, formed MapKure with BeiGene to advance a next-generation B-RAF inhibitor, and signed our first collaboration with GlaxoSmithKline to evaluate nirogacestat in combination with BCMA-directed therapies in patients with relapsed and refractory multiple myeloma,” said Saqib Islam, Chief Executive Officer of SpringWorks. “Our strong execution in 2019 positions us to deliver on our planned strategy in 2020 and beyond. We are pursuing a broad effort with industry-leading BCMA developers to advance potentially best-in-class multiple myeloma combination therapies using nirogacestat, are focused on continuing to enroll our ongoing clinical trials and further expanding our portfolio through additional in-licenses and collaborations.”

#### Recent Business Highlights

- Initiated a Phase 1 clinical trial of BGB-3245, a selective next-generation B-RAF inhibitor, in adult patients with biomarker-defined advanced or refractory solid
-

tumors. BGB-3245 is being advanced by MapKure LLC, a clinical-stage company that is jointly owned by SpringWorks and BeiGene, Ltd.

- Entered into a clinical collaboration agreement with Allogene Therapeutics to evaluate nirogacestat in combination with ALLO-715, an investigational anti-B-cell maturation antigen (BCMA) allogeneic CAR T cell therapy, in patients with relapsed or refractory multiple myeloma.
- Presented data at the American Society of Hematology meeting showing activity of nirogacestat alone and in combination with GlaxoSmithKline's investigational BCMA antibody-drug conjugate (ADC), belantamab mafodotin, in preclinical models of human multiple myeloma.
- Dosed the first patients in the Phase 2b ReNeu clinical trial evaluating mirdametinib in children and adults with neurofibromatosis type 1-associated plexiform neurofibromas (NF1-PN).

#### Fourth Quarter and Full Year 2019 Financial Results

- **Research and Development (R&D) Expenses:** R&D expenses were \$12.2 million and \$42.5 million for the fourth quarter and year-to-date periods, respectively, compared to \$3.7 million and \$9.9 million for the comparable periods of 2018, respectively. The increases in R&D expenses in 2019 were primarily attributable to increased clinical study and drug supply costs related to the ongoing Phase 3 DeFi and Phase 2b ReNeu trials, as well as growth in employee costs, including non-cash share-based compensation associated with increases in the number of R&D personnel.
- **General and Administrative (G&A) Expenses:** G&A expenses were \$5.2 million and \$16.7 million for the fourth quarter and year-to-date periods, respectively, compared to \$2.7 million and \$8.6 million for the comparable periods of 2018, respectively. The increases in G&A expenses in 2019 were primarily attributable to growth in employee costs, including non-cash share-based compensation associated with increases in the number of G&A personnel, and increases in consulting and professional services related to the expansion of our business activities.
- **Net Loss Attributable to Common Stockholders:** SpringWorks reported net losses of \$16.2 million, or \$0.39 loss per share, and \$50.6 million, or \$3.81 loss per share, for the fourth quarter and year-to-date periods ended December 31, 2019, respectively. This compares to net losses of \$6.2 million, or \$10.82 loss per unit, and \$17.8 million, or \$52.24 loss per unit, for the comparable periods of 2018, respectively.
- **Cash Position:** Cash and cash equivalents were \$327.7 million as of December 31, 2019.

#### About SpringWorks Therapeutics

SpringWorks is a clinical-stage biopharmaceutical company applying a precision medicine approach to acquiring, developing and commercializing life-changing medicines for underserved patient populations suffering from devastating rare diseases and cancer. SpringWorks has a differentiated portfolio of small molecule targeted oncology product

---

candidates and is advancing two potentially registrational clinical trials in rare tumor types, as well as several other programs addressing highly prevalent, genetically defined cancers. SpringWorks' strategic approach and operational excellence in clinical development have enabled it to rapidly advance its two lead product candidates into late-stage clinical trials while simultaneously entering into multiple shared-value partnerships with industry leaders to expand its portfolio. ### **Forward-Looking Statements**

This press release contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, as amended, including, without limitation, statements regarding SpringWorks' clinical trials and its strategy, business plans and focus. The words

"may," "will," "could," "would," "should," "expect," "plan," "anticipate," "intend," "believe," "estimate," "predict," "project," "potential," "continue," "target" and similar expressions are intended to identify forward-looking statements, although not all forward-looking statements contain these identifying words. Any forward-looking statements in this press release are based on management's current expectations and beliefs and are subject to a number of risks, uncertainties and important factors that may cause actual events or results to differ materially from those expressed or implied by any forward-looking statements contained in this press release, including, without limitation, those related to SpringWorks' financial results, the timing for completion of SpringWorks' clinical trials of its product candidates, whether and when, if at all, SpringWorks' product candidates will receive approval from the U.S. Food and Drug Administration, or FDA, or other foreign regulatory authorities, competition from other biopharmaceutical companies, and other risks identified in SpringWorks' SEC filings. SpringWorks cautions you not to place undue reliance on any forward-looking statements, which speak only as of the date they are made. SpringWorks disclaims any obligation to publicly update or revise any such statements to reflect any change in expectations or in events, conditions or circumstances on which any such statements may be based, or that may affect the likelihood that actual results will differ from those set forth in the forward-looking statements. Any forward-looking statements contained in this press release represent SpringWorks' views only as of the date hereof and should not be relied upon as representing its views as of any subsequent date.
